

# Aroma Thyme Bistro

Aroma Thyme Bistro is a Certified Green Restaurant®, from the Green Restaurant Association. We are one of less than 300 restaurants across the United States. We are strictly audited for our environmental impacts from water usage, to go containers, post consumer products and over 30 other Mother Nature friendly & educational practices.

As part of Aroma Thyme's commitment as a Certified Green Restaurant®, water is served only upon customer request in order to preserve this precious resource.

In the U.S., an estimated 70 million meals are served in restaurants each day. If one-quarter of the customers declined water service, 26 million gallons of fresh water would be saved every day.
